The **Cardinal HCM Payroll Reports Catalog** covers the Payroll (PY) functional area within Cardinal HCM. Each functional area contains queries and reports specific to that area.

Note: Since reports and queries may be used by more than one functional area, if you do not find the report or query in your functional area, please review the other Cardinal HCM Reports Catalogs, as the report or query may be located in a different functional area.

After reviewing this **Cardinal HCM Payroll Reports Catalog**, if any additional information or guidance is needed, please refer to the following:

- **Cardinal SW NAV225 Cardinal Reporting (HCM):** This Web Based Training (WBT) course provides training and interactive demonstrations that cover the fundamentals of how to run or access reports and queries. This course is available in **Cardinal Learning** and on the **Cardinal Website**. The course provides:
 - Key concepts in Cardinal HCM reporting
 - How to navigate to the Query Viewer, how to search for and run an HCM query and how to access query results online or by download
 - How to run HCM reports and how to navigate to the Report Manager and view reports

Federal and State Taxable Variance Report Query (RPY517) V_PY_FIT_SIT_TAXABLE_VARIANCE

REVISED: 02/27/2023

DESCRIPTION:

Payroll is responsible for completing Quarterly and Year end reconciliations for taxable wages and taxes collected during the payroll processing for 941, W2\, and state reporting purposes. A comparison to the Federal and State Taxable wages is a part of this reconciliation. The taxable wages should always equal, even when the employee may have had taxes collected in multiple states.

This query lists all employees with a variance between YTD Federal Taxable Wages and State Taxable Wages. It includes the Employee ID, Name, YTD Federal Taxable Wages, YTD State Taxable Wages and State.

Base Pay Compare Report (RPY555)

REVISED: 04/09/2025

DESCRIPTION:

This report compares:

- The salaried base pay (RGS) in HR from the last confirmed payroll to the current payroll and
- The salaried based pay (RGS) between HR and Payroll.

There are two sections to this report. The Summary section (see below) shows the comparison totals for HR Data and Payroll Data. The Detailed section lists all employees that determined each of these totals.

Screenshot of the Base Pay Compare Report Run Control Page

The screenshot shows the 'Base Pay Compare Report' run control interface. At the top, it displays 'Run Control ID BASE_PAY_COMPARE' and navigation links for 'Report Manager', 'Process Monitor', and a 'Run' button. Below this is the 'Process Request Parameter(s)' section, which contains an 'On-Cycle Run' box with input fields for '*Pay Run ID' (containing 'SM1020925') and '*Company' (containing 'ABC'). A 'Report Format Selection' section below has a checkbox for 'Run to CSV' which is currently unchecked. At the bottom, there are buttons for 'Save', 'Return to Search', 'Add', and 'Update/Display'.

ADDITIONAL INFORMATION:

Pay Run ID and Company fields are required fields.

HR Data

This portion of the report looks at the employee compensation rate from the job data record. It compares the data from the job data record as of the last confirmed payroll to the current payroll.

- **Total Salaried Base Pay Previous Period** – totals the base compensation from the employee’s job data records as of the pay end date of the last confirmed payroll
- **Add New Employees** – totals pay for employees hired or rehired as of the current pay period. This includes employees hired with an effective date in the prior period after that payroll was confirmed
- **Minus Termed Employees** – totals pay for employees that have been terminated as of the current pay period. This includes employees terminated with an effective date in the prior period after that payroll was confirmed
- **Add Salary Changes** – totals pay for employees that had pay rate changes since the prior pay period pay end date. This includes salary changes entered with an effective date in the prior period after the payroll was confirmed
- **Calculated Base Pay Earnings** – Prior period total + Hires – Terms + Salary Changes
- **Actual Salaried Base Pay Current Period** – totals the base compensation from employee job records as of the pay end date of the current payroll

Note:

- There should be no differences found.
- HR transactions keyed after the Data Change Freeze will be included in the HR Data portion of this report. Certain transactions will not be pulled into payroll, therefore, will not be included in the Payroll Data portion.

Payroll Data

This portion of the report compares the employee compensation rate from their job record to the base pay on the current payroll.

Note: HR transactions keyed after the Data Change Freeze will be included in the HR Data portion of this report. Certain transactions will not be pulled into payroll, therefore, will not be included in the Payroll Data portion.

- **Actual HR Salaried Base Pay Current Period** – totals the base compensation from employee job data records as of the pay end date of the current payroll (pulled from the HR Data section)
- **Employees with No Paycheck** – totals pay for employees who are active as of the pay end date but have no check.
 - Employees on an unpaid leave status are considered active but do not receive base pay
 - A check was turned off by SPO
 - Pay docking removed the full amount of the base pay
- **Payroll Auto Pay turned off** – totals pay for employees that have auto pay turned off as of the pay end date.
- **Mid Period Hires** – totals pay for employees hired during the pay period. These employees will have a partial payment (i.e., their payroll reg pay will be less than their HR base pay)
- **Mid Period Terms** – totals pay for any employees termed during the pay period. These employees will have a partial payment (i.e., their payroll reg pay will be greater than their HR base pay)
- **Mid Period Rate Changes** – totals pay for any employees with a pay rate change effective during the pay period. These employees will have a partial payment (i.e., their payroll reg pay will be different from their HR base pay). This category includes active employees whose HR base pay differs from the amount of base pay on the paycheck for other reasons. In many cases the employee received a zero net check, but unlike the first category, these employees did receive a check.
- **Calculated Base Pay Earnings for Payroll** – Sum of the categories above to reflect the expected base pay that is included in the payroll.
- **Actual Base Pay Earnings for Payroll** – Sum of all base pay on the checks for the current payroll

Note: There should be no differences found.

- **Base Pay SPOT adjustments** – Sum of all SPOT adjustments to base pay (i.e., earning code RGS) entered during the pay period, regardless of begin and end date on the SPOT.
- **Base Pay Impact of Reversals** – Sum of reversals (voided) checks from prior pay periods processed in the current pay period.
- **Calculated Total Base Pay (Pay Earnings + SPOT)** – Sum of the actual Base Pay Earnings for Payroll and the SPOT adjustments to RGS.
- **Base Pay Total (RGA Accumulator)** – Sum of all the base pay for the current payroll reflected in the RGA accumulator.

The Calculated Total Base Pay and the Base Pay Total can be compared to other payroll reports such as the COVA Payroll Register, COVA Payroll Summary Report or the Condensed Payroll Register.

Note: There should be no differences found.

COVA Error Listing Report (RPY261, TAX900)

REVISED: 07/15/2025

DESCRIPTION:

This regulatory report is used to monitor and correct potential W-2 errors throughout the year to flag errors that will impact forms at year end. This report lists employees who have negative tax balances or reportable wage amounts that would cause overflow in fields when the system writes W-2 data to magnetic media. It also checks for other error conditions.

Payroll Administrators should reconcile the Annual Reporting Error Listing Report on a quarterly basis, as it is a tool used for research of errors on the Quarterly Tax Balances Audit Report. This report is used by SPO and agencies and can be run by quarter or year to date.

COVA Deduction Register Report (RPY146)

REVISED: 02/26/2024

DESCRIPTION:

This Deduction Register Report lists employees who have any deductions and nontaxable amounts subtracted from their pay. If the current deduction contains adjustments or refunds, amounts paid in arrears or amounts excluded, the report lists them in separate columns and provides column totals. This register lists the amount of money deducted from each employee's paycheck for general deductions, garnishments, and benefits, including taxes, as of the end of a pay period. It can be run by Company.

COVA Post Freeze Change Report (RPY545)

REVISED: 03/10/2025

DESCRIPTION:

This report provides a snapshot of the gross pay that is taken immediately after the HR data Freeze. It lists all changes to gross pay after the Freeze until confirm. The report lists new checks, checks with changes, and removed checks.

New checks:

- New hire (all new hires are loaded with every pay calc)
- Corrected payroll errors (employees with payroll errors preventing a check)

Changed checks:

- SPOT loads (remember a SPOT entry triggers the entire check to be recalculated which may pull in other data changes)
- Updates made directly by SPO

Removed checks:

- Checks turned off by SPO
- Check with a payroll error (should be corrected prior to confirm)

This report changes as the payroll data is changed up until pay confirmation. It can be run prior to confirmation to show the ongoing changes since the Freeze, or it can be run after confirmation to show all the changes along with the final total gross.

COVA Quarterly Tax Balances Audit Report (RPY227)

REVISED: 09/15/2021

DESCRIPTION:

This regulatory report compares the employee QTD tax balance with the sum of Tax Detail records from each payroll run for each tax class and tax jurisdiction, making it possible to verify that system computations are correct for these balances.

This quarterly report is used by SPO and agencies to identify problems with the Quarterly Tax balances.

Multiple Worksite Report (RPY241)

REVISED: 06/06/2024

DESCRIPTION:

This regulatory report lists each tax location used to calculate the employees' work taxes. The tax location is considered a worksite when completing the information on the federally mandated Multiple Worksite report (BLS-3020) or state variations.

Every quarter, SPO produces the Multiple Worksite Report (RPY241) for the calendar year and calendar quarter specified on the run control page. Agencies will also be able to generate the PDF for their agencies only. The Multiple Worksite Report provides the employee count as of the 12th of the last month in the quarter and the total State Unemployment Insurance (SUI) wages paid in the quarter per worksite.

Virginia Quarterly UI Wage Report (RPY246)

REVISED: 09/23/2024

DESCRIPTION:

This regulatory Unemployment Insurance (UI) report creates a list of unemployment wages submitted quarterly.

This report displays a list of the employees and their quarter to date UI taxable wages reported to VEC. Agencies only see info for the agencies they have access to. Negative amounts in the QTD SUI Wage column are reported in a separate section or report and totaled separately from the positive amounts. These amounts must be manually submitted as adjustments to VEC by the individual agencies.

NAVIGATION PATH:

NavBar > Menu > Payroll for North America > U.S. Quarterly Processing > Quarterly Reports > VA Qtrly UI Wage Rpt

INPUT / SEARCH CRITERIA:

Balances for Year

Screenshot of the Virginia Quarterly UI Wage Report Run Control Page

The screenshot shows the 'Run Control' page for the 'VA Qtrly UI Wage Rpt'. The page title is 'Virginia Quarterly UI Wage Report'. It includes a 'Run Control ID' field with the value 'QTRLY_WAGE_FILE', a 'Report Manager' link, a 'Process Monitor' link, and a 'Run' button. Below this is the 'Report Request Parameters' section, which contains two sub-sections: 'Balance Parameters' and 'Company Selection'. The 'Balance Parameters' section has three input fields: 'Balance ID' with a dropdown set to 'CY', 'Balances for Year' with a text input '2024' and a search icon, and 'Quarter' with a text input '2' and a search icon. The 'Company Selection' section features a table with a search bar, a 'View All' link, and a table with columns 'Company' and 'Description'. The table contains one row with 'ABC' in the 'Company' column and 'Alcoholic Beverage Control' in the 'Description' column, with '+' and '-' buttons to its right. At the bottom of the page are 'Save', 'Return to Search', 'Add', and 'Update/Display' buttons.

ADDITIONAL INFORMATION:

Balances for Year and **Quarter** are required fields.

Note: This report produces two PDF files. One is the positive QTD SUI wage totals used by the agencies in online reporting to VEC. The second displays employees with negative QTD SUI wage amounts which must be submitted separately to VEC.
